## PROFILE SUMMARY

Motivated Data Analyst fresher with a strong foundation in SQL, Excel, and data analysis. Skilled in cleaning, analyzing, and interpreting data to identify trends and support data-driven decision-making. Eager to learn and contribute analytical insights.

## WORK EXPERIENCE

### GSCSCL Warehouse, Chikhli (NON-IT) | 2024-2025

Agri-Apprentice

- Assisted in warehouse operations involving storage, handling, and distribution of agricultural commodities.
- Maintained inventory records, stock registers, and documentation.
- Monitored quality checks, weighing, and dispatch processes as per guidelines.
- Ensured safety, hygiene, and efficient stock management.

### The One Technologies | 2024

Full-Stack Developer Intern

- Developed a minor feature for the Total Wall Covering e-commerce project by implementing a shipping cost module that calculates charges based on order size and delivery distance, with regular and expedited options displayed instantly at checkout. Built backend APIs for shipping rate calculation and product data retrieval. Integrated a searchable and filterable wallpaper catalog

## ACADEMIC PROJECT

### Web-Based E-Commerce Management System

- Developed a secure and scalable web-based e-commerce management system using ASP.NET Core. Built a centralized admin dashboard to manage products, users, orders, and website content. Implemented JWT-based authentication and role-based authorization for secure access control. Designed RESTful Web APIs for efficient frontend-backend communication. Supported complete CRUD operations with data validation and integrity checks. Developed cart and order management for e-commerce workflow handling. Created a responsive and user-friendly UI using Bootstrap 5. Enhanced interactivity using jQuery and JavaScript. Designed and integrated the database using SQL Server.
